✦ ONE PLATFORM, EVERY WORKFLOW

# Everything you need to scale recruitment

Replace spreadsheets, emails and 5 different tools with one elegant platform.

## Application pipeline

Track every stage from draft to enrollment with a visual pipeline.

## Global universities

Access 1,200+ partner institutions across 80+ countries.

## Built-in messaging

Students, agents and universities chat in one shared thread.

## Document vault

Secure document storage with version control and expiry alerts.

## Conversion analytics

See drop-off points and optimise your funnel in real time.

## Visa tracking

Monitor visa status and deadlines across all active applicants.

✦ INTUITIVE SUGGESTIONS FOR EACH WORKFLOW

## Simple guided pathways for every user

Students and agents get quick guidance first. Sensitive partner details stay protected until users register.

Students can get course, fee, and salary guidance without creating an account. University names appear only after counselling registration. Agents can preview markets now and unlock full partner details after sign-up.

### Clear and guided

Start with basic course mapping your programs. Then register to unlock counselling, applications, and complete partner details.
